ÜL 1

ÜL 2a

ÜL 2b

The screenshot shows a web browser window displaying the Tartu Ülikool dashboard. The dashboard includes a sidebar with navigation links like "Töölau", "Teated", "Minu tunniplaan", "Õppetulemused", "Valikud õppekavas", "Registreeringud", "Avaldused", and "Tingimused ja tugi". The main content area shows a "Minu ASJAD" section with links to "Moodle", "Õisi info ja abi", and "Uutele üliõpilastele". A notification banner at the top right states: "Alates 29. jaanuarist ei saa ut.ee e-posti aadressile tulnud kirju üliõpilastele e-posti aadressidele edasi suunata. Loo muudatused lähemalt Ülikooli e-posti aadressile saadetud kirju näed veebilehelt https://kur.ut.ee ja õisi teadete postkastis."

The browser's developer tools are open, showing the "Application" tab. The "Storage" section is expanded, displaying session storage data for the origin "https://ois2.ut.ee". The data includes a "jwt" key with a long Bearer token and an "exp_time" key with the value "170922339822".

The "Storage" tab is also open, showing the "Session Storage" section. The "Data" section displays the JWT token: "eyJhbGciOiJIUzI1NiIsInR5cCI6IkpzZW50b3R5IiwiaXNja2kiOiJ1b3R5IiwiaWF0IjoxNzA5MjIzMTU5fQ". The "Metadata" section shows the token's structure, including the "exp" claim and the "payload" array.
